Report No. SAT-00788

Friday June 24, 2011

Policy Branch Information

Satellite Space Applications Accepted for Filing

The applications listed below have been found, upon initial review, to be acceptable for filing. The Commission reserves the right to return any of the applications if, upon further examination, it is determined the application is not in conformance with the Commission's rules or its policies. Consideration of each satellite application in this Public Notice may depend on the Commission's action on another satellite application earlier in the queue. Petitions, oppositions and other pleadings filed in response to this notice should conform to Section 25.154 of the Commission's rules, unless otherwise noted. 47 C.F.R. § 25.154.

SAT-AMD-20110613-00107 E S2826 SES Americom, Inc.
Date Filed: 06/13/2011 18:18:19:78300
Amendment

See IBFS File No. SAT-RPL-20110429-00082 for a full description.

SAT-RPL-20110429-00082 E S2826 SES Americom, Inc.
Date Filed: 04/29/2011 14:01:08:88300
Replacement Satellite Application (no new frequency)

SES Americom, Inc. seeks authority to construct, launch, and operate the SES-2 space station at the 87° W.L. orbital location. SES Americom seeks to operate SES-2 at 87° W.L. in the C-band (3700-4200 MHz and 5925-6425 MHz) and in the Ku-band (11.7-12.2 GHz and 14.0-14.5 GHz) to provide fixed-satellite and direct-to-home services. SES Americom states that SES-2 will replace the AMC-3 space station, Call Sign S2162, currently operating at the 87° W.L. orbital location. SES Americom also seeks authority to construct and launch a 17/24 GHz broadcasting-satellite service payload on its satellite. The satellite is capable of operating in the 24.75-25.25 GHz (Earth-to-space) and 17.3-17.8 GHz (space-to-Earth) frequency bands. SES Americom does not seek operational authority for this 17/24 GHz BSS payload. To the extent necessary, with respect to the 17/24 GHz BSS payload, SES Americom seeks waivers of Sections 25.165(a), 25.210(f), and 25.114(d)(3) of the Commission's rules. In addition, SES Americom states that the SES-2 space station will host a Federal Government-licensed payload for which SES Americom is not seeking FCC authorization.

For more information concerning this Notice, contact the Satellite Division at 202-418-0719; TTY 202-418-2555.
